The leading international trade fair for the meat industry

IFFA – The No. 1 for the meat industry – opens its doors again from 4 to 9 May 2019. As the sector's foremost innovation platform, IFFA will once again bring together all players from the industry, retail trade and butcher's trade in Frankfurt am Main. Thanks to its clear focus, the world's leading trade fair for the sector is unrivalled: everything revolves around the most valuable of all foodstuffs – meat.

Good reasons why you should come to IFFA 2019

- See the innovations being shown by over 1,000 companies from 50 countries
- Meet the market leaders at the same time and place
- Discover the latest meat-industry trends
- Experience the entire spectrum from manufacturing to high-tech
- Make contacts with the international meat-industry community

IFFA will be held from 5th to 9th May 2019 in Frankfurt, Germany. I am sure many abattoirs have already made arrangements to attend this Abattoir technology show.

The Lissner group (Lißner engineers + architects Dennis und Tobias Lißner) have offered to arrange for two abattoir visits on the 8th and 9th May 2019 with details as follows:

- 8th ~ Beef and pork plant in Austria (2000 m2 facility)
- 9th ~ Pork plant in Luxembourg (5000 m2 facility)

The approximate cost per visit is 250 Euro (flights and transport)
Dennis Lissner will also gladly host you at IFFA during the IFFA show. (hall 9.1 stand D79)

Please contact me should you be interested.
